
Inside & Out

*What's new
for your nest*

And now jewelry for that special room

Perhaps you still need just the right furniture pieces for that room with the new window coverings and decorated walls.

Atelier by Councill offers special pieces designed to complete your space.

A writing desk inspired by French Moderne is named the Jacques. It's mahogany with a concave front, leather top and side panels and ostrich leather drawer fronts. The suggested retail price is \$5,000.

And if you're a Biedermeier admirer, it's hard to imagine a more impressive side table than the one labeled Vienna. Free-form curves can be selected with a contrasting top and lower shelf. It costs about \$2,000.

Sarah Gayle Carter has designed several other styles, too. They are available through Baker Knapp & Tubbs at the Merchandise Mart and at Richard Honquest Fine Furniture in Barrington.
